FUNDAMENTAL COMPOUNDING & CALCULATIONS is a 2-day, practice-based course designed for pharmacists, technicians, marketers, and students who are new to compounding or who have had training in the past, but want a refresher. Physicians and other health care professionals are welcome to attend.

This hands-on course focuses on the proper preparation of fundamental dosage forms utilized by pharmacies that are compounding medications for their patients. Participants will learn through pharmacy calculation practice, lectures, and hands-on laboratory training in a fully equipped lab.

Our low instructor/participant ratio allows for individual attention and interaction. The program is structured to demonstrate skills that can be immediately implemented by participants.

Course Date: September 28th – 29th, 2018

CLINICAL DERMATOLOGICAL & COSMECEUTICAL COMPOUNDING is a 2-day, practice-based course designed for pharmacists, technicians, marketers, and students who want to learn more about a growing segment for compounding. Physicians and other healthcare professionals are welcome to attend.

This course is a combination of didactic lectures for content and laboratory activities to enhance skill of compounding. Topics covered include: eczema, dermatitis, psoriasis, acne vulgaris, acne rosacea, cutaneous infections (impetigo, cellulitis, candidiasis, warts), hyper-pigmentation, scars, and stretch marks. A pain management component will also be included.

Course Date: September 30th – October 1st, 2018

All courses will be held in the Education Lab at Xenex Laboratories, #102 – 2440 Canoe Avenue, Coquitlam, BC. A continental breakfast, catered hot lunch, morning and afternoon snacks and beverages are provided each day.
